In India Italian Textile Machinery industry boost the trade relations

Italian textile technology has always been a reliable partner for the India's textile industry. Now a new promotional initiative aims to boost trade relations between the two Countries in the textile sector. Indeed 11 Italian textile machinery manufacturers will be taking part in the forthcoming technological symposia scheduled in New Delhi and Mumbai from 9 to 12 April. The two events organized by the Italian Trade Agency and supported by the Ministry of Foreign Affairs and International Cooperation, will allow Italian companies to showcase their most up-to-date technologies to a selected audience of Indian textile entrepreneurs.
